

Team Members of Red Rock Station, Station Casinos, Water Conservation Coalition Member

IT'S TRUE. WE'RE IN BED WITH THE WATER AUTHORITY.

Station Casinos participates in the Water Conservation Coalition's Linen Exchange program. By replacing towels and linens upon request, we save our desert community millions of gallons of water each year. Our guests appreciate our "green" effort, and we save thousands of dollars on water and operational costs.

The Water Conservation Coalition challenges all of Southern Nevada's resorts, hotels and motels to do the right thing by joining the Linen Exchange program. There is no cost to participate. To learn how you can save water and money while demonstrating leadership as well, call 258-7291 or visit waterconservationcoalition.com.

Water Efficiency Is Everyone's Business.
